Hardy Perennials

COREOPSIS (Mayfield Giant). A new variety from England. Taller and more vigorous than the type with longer and firmer stems and much larger blooms. Flowers beautifully formed and a fine golden-yellow color. Excellent cut flowers all summer long. Extra large two-year-old plants. Each 30c. 3 for75c

BITTERSWEET VINES—A well known native climbing vine. The clusters of orange-red berries are popular for winter decorations. The plant is very hardy and not particular as to soil or location. The plants we are offering are ideal for starting a bittersweet screen. 10 two-year-old field grown plants for.....\$1.00

Columbine - - Dobbie's Imperial Hybrids

Unquestionably the world's finest strain of long spurred Columbine because of their magnificent range of colors and sturdiness. Colors range from the deepest blues to lilac and heliotrope and from bright scarlet to pastel shades of pink. No other strain will approach it in richness of color.

The plants we are offering are the result of two seasons of intensive growth and care. The heavy roots are filled with vigor and vitality ready to glorify your garden with their magnificent show in June. Order them today.

Each 25c - 6 for \$1.00 - 25 for \$3.50 - 50 for \$6.50 - 100 for \$12.00

SHASTA DAISY SUPREME. A new Shasta Daisy that is the finest we have ever seen. It is unsurpassed in size, clearness of white, fullness of center, and substance of petalage. The immense pure glistening white daisies are produced on tall, strong, straight, stems over the entire summer. Excellent landscape variety and ideal as a cut flower. We offer strong field grown plants that will bloom the entire summer. Each 30c 3 for75c

CORALBELL PLUE de FEU—An outstanding new bright red Coralbell which continues to bloom all summer. Outstandingly superior to old varieties. When well established and in bloom gives the impression of a fountain of fire. A splendid cut flower. 4 heavy clumps for.....\$1.00

Columbine

Blue King

A much improved strain, the result of many years careful selection. The vivid deep blue flowers are very large with extra long spurs. The yellow stamens add a charming glow to the already beautiful flowers. If one loves blue columbine this strain leaves nothing to be desired.

When in bloom last spring our large block of these true blue Columbine brought exclamations of wonder and delight from everyone who saw them. You must find room for some in your perennial plantings.

Our price is only possible because of quantity production. The plants are extra select 2-year field grown. All will bloom abundantly in your garden this summer. Each.....20c

3 for 50c 7 for \$1.00 25 for \$3.00
100 for \$10.00

Platycodon

(Japanese Balloon Flower)

The large bell-shaped flowers of rich blue glorify the perennial garden during July and August when a cool color is needed. Given a rich sandy well-drained soil in full sun the Platycodon is a very permanent plant. We have plants in our border that have been undisturbed for twelve years and have never failed to give an abundance of bloom each summer. Has no known enemies or diseases. Has perfect plant habits. Grows 2 to 3 feet tall.

Splendid two-year-old roots that will make a good showing this summer. Each.....20c

New Double Pyrethrum

Brilliant — Fascinating — Glorious

These glorious new creations of Double Pyrethrum are taking the garden lovers by storm. Far surpass the older varieties in size, coloring, and splendor. Stocks are limited as vegetative propagation is the only means of keeping varieties true to type. We would suggest you order early if you wish to procure the plants. Our plants are strong two-year field grown plants that will give abundant bloom this season.

BUCKEYE. Multitudes of double red flowers completely covering the strong plants. Excellent long stems for cutting.

MIAMI QUEEN. Semi-double clear pink—very free flowering over a long period.

BRILLIANT. A very promising new double red. Usually in bloom for Memorial day here.

TROJAN. Semi-double deep pink flowers produced over a long season. Outstandingly beautiful.

SPECIAL COLLECTION

1 Each of the 4 Varieties

\$1.50

Single Plants 40c

FRINGED BLEEDING HEART. Nice plant for the shady nook in the rockery or border. The fine fern-like foliage and rosy pink flowers give grace to the garden at all seasons. Plant in light shade in ordinary soil. It continues to bloom from June to September. Fine for the wild garden. Height 12 inches. We are offering very select large clumps for immediate effect. Each 30c. 3 for.....75c

GAILLARDIA

We are offering two new varieties of these ever popular border flowers. Plants are strong vigorous field grown and will give an abundance of bloom all summer.

BURGUNDY. Shining coppery-scarlet flowers three inches in diameter produced all summer on stiff strong stems. Each 25c
3 for60c

DAZZLER. A perfect blending of crimson and gold in a vivid splash of color. Good plant habit. Excellent cut flower. Each 25c

Dianthus

(Hardy Pinks)

These old time favorite perennials with their rich colors and spicy fragrance are excellent for the rockery. No rock garden is complete without at least a few varieties of these beautiful flowers that add beauty that is permanent, as they live on from year to year. They do best in a dry, light sandy soil. Plant about eight inches apart.

ALPINUS ALWOODI (Hybrid). A gem for the rock garden. Producing multitudes of large rose and pink flowers during July and August. Foliage glossy and attractive at all seasons. Height 6 inches.

ARENARIOUS (Sand Pink). This is the ideal plant to use for that hot sunny place in the rockery or rock wall. Foliage is neat tufts of deep green with large lacy, white, very fragrant flowers produced on eight-inch stems.

CAESIUS GRANDIFLORUS (Cheddar Pink). The true cushion pink. Foliage like little balls of silver over which the very fragrant rose colored flowers are produced on five-inch stems.

DELTOIDES (Maiden Pink). One of the prettiest border pinks, making neat mats of foliage bearing thousands of bright crimson flowers during July and August. Very easily grown and satisfactory in the rockery. Height five inches.

KNAPPI. Unique in that it is the only Dianthus producing yellow flowers. Slender stems support the clusters of yellow flowers on 12-inch stems. Does best in a well drained sunny spot.

PLUMARIUS (Pheasant Eye Pink). A universal favorite of the pink family. Spicy fragrant rose, pink, and white flowers all summer on one-foot stems. Excellent for the rockery and front of border.

SPECIOSUS (Lace Pink). Beautiful lacy flowers of a clear lavender-pink produced in great abundance. Wonderfully sweet scented. Easily grown and very attractive. A good cut flower. Height 12 inches.

All Hardy Pinks 20c each; 3 of a kind 45c.

Rock Garden Plants

Phlox Subulata

(Moss Pink)

Invaluable plants for the rockery with their pretty moss-like evergreen foliage that during April and May is hidden by an avalanche of blossoms in white, pink, and lilac. All varieties of Phlox Subulata should be grown in a dry location with full sunlight. A few of each color should be in every garden. Plant in very early spring.

ATROPURPUREA. New. A splendid novelty. A vivid carpet of deep wine red completely covering the bronze green foliage in May and June. Habit of plant excellent. Very free flowering. Plant it in masses for a gorgeous sight. Each 25c. 3 for 60c. 6 for.....\$1.00

ALBA. Pure white. Flowers completely cover the compact plants in May.

LILACINA. A robust creeping variety fine for bold masses in the rockery. Rose magenta flowers in May. Evergreen foliage—pretty in winter.

ROSEA. A shower of bright rose flowers covering compact, creeping foliage. Very showy in the rockery and makes an excellent edging plant. Prices on above three Phlox Subulata 20c each. 3 for 50c. 8 for \$1.00

7 **SAPONARIA OCYMOIDES** for \$1.00. A free flowering and very easily grown plant for the front border or rockery. Covered in May and June with thousands of small rosy-pink flowers. A trim attractive trailing plant with fine foliage making it useful when not in bloom. Height 4 inches. Each 20c. 3 for.....50c

8 **FESTUCA GLAUCA** (Blue Fescue Grass) for \$1.00. Neat tufts of bright steel blue grass growing eight to ten inches tall. Very useful for edging or for contrast with other foliage. Each 20c. 3 for.....50c

6 HARDY ROCK GARDEN PINKS. This collection is made up of one each of six different Dianthus suited for the rock garden. The colors of these dainty fragrant Pinks will include white, pink, lavender, crimson and yellow in a blooming range from May to August. Six sturdy field grown plants sure to bloom this summer for.....\$1.00

8 CREEPING JENNY (*Lysimachia Nummularia*) for \$1.00. A fast spreading ground cover for wet shaded locations or by the waterside. Fine plant for carpeting among ferns or in the wild flower garden. Attractive green foliage and yellow flowers in summer. Also called Moneywort. Height two inches. **Each 20c. 3 for.....45c**

8 MAIDENHAIR FERNS for \$1.00. The most graceful of all hardy ferns. The slender upright black stems are crowned with multitudes of graceful spreading fronds of the most pleasing green. Blends well with all other shade loving plants. Height 18 inches. **Each 20c. 3 for.....50c**

10 SEDUMS. All distinct, hardy and desirable varieties. Both upright and creeping. Our selection of varieties. \$2.00 value for.....\$1.00

10 PHLOX DIVARICATA. A showy easily grown, free flowering native for the rock garden or the semi-shaded border. Multitudes of deep lilac colored flowers in spring. Ten plants for.....\$1.00

3 ROCK GARDEN JUNIPERS. These beautiful prostrate evergreens should be in every rock garden. They are immune to insects and diseases, perfectly hardy anywhere, not particular as to soil or location and add their blue-green foliage to the garden twelve months of the year. The size we are offering is excellent to grow on in the garden for two years when they will make splendid specimens to use in the landscape planting. One each of the three outstanding varieties Pfitzeriana, Sabina, and Plumosa Depressa for\$1.00

AJUGA REPTANS (Bugle).	Dwarf perennial well suited to edging or carpeting in the rock garden. Fine foliage effect and in May and June producing deep purplish-blue flowers in abundance. Height 3 inches.
Each 20c	3 for 50c 7 for \$1.00

10 HEN AND CHICKENS for \$1.00. Desirable and fascinating hardy succulent plants for the rock garden. This offer is only possible because of quantity production. Plants are hybrids grown from seed and will show many variations. A Bargain.

Sempervivum

(Hen and Chicken)

These five are the most outstanding of the newer Hen and Chickens—should be in every garden.

ALPHA. Brownish green. Three inches.

ATROVIOLACEUM. Rosy purple rosettes.

MAUVINE. Mauve toned. Five inches.

SILVERLINE. Large, silvery gray.

EMERALD GIANT. Heavy, compact green rosettes.

ONE PLANT OF EACH FOR \$1.00

Single Plants 25c

The Lehman Gardens

FARIBAULT, MINNESOTA

“When Better Plants Are Grown Lehman’s Will Grow Them”

HEMEROCALLIS

The Golden Day Lilies

The Hemerocallis is becoming very popular for garden planting. They possess the characteristics of perfect perennials. They are perfectly hardy; easy of culture; free blooming, colorful, and have no insect enemies or diseases. Most varieties have a very pleasing fragrance. They can be planted in either spring, summer, or fall. By planting our strong sturdy plants in spring you can be assured of abundant bloom this summer. They will tolerate almost endless neglect, poor soil, and locations, but to have them at their best give them rich soil and do not let them suffer for want of water during dry periods. When planting give them about two feet of space to develop in.

By selecting the different varieties one may have Day Lilies in bloom from May to early September in colors from pale yellow to gold, apricot to orange to almost red.

AMARYLLIS. Resembles a large golden-orange Amaryllis. Very desirable. July blooming. Height 3 feet. Each.....\$1.00

APRICOT. A fragrant early blooming light apricot-orange. Large overlapping petals slightly reflexed. May blooming. Each.....35c

OUR PRICES

All the plants we send out are a finished product best suited for your success. Everything we list is field grown with a good balanced root system. Our prices are lower not because of cheapened quality, but because we eliminate costly catalogs, advertising, and general overhead expenses. Give us a trial order and if you do not think the plants are as represented return them at our expense and your money will be cheerfully refunded.

We are located fifty miles south of Minneapolis on Federal Highway 65.

ANOTHER 12% SAVING

We pay the transportation charges. Over a period of years our average transportation charge has been 12%. We prepay charges—this saving is yours. When you order from us you know exactly what your stock will cost you delivered to your door.

All plants and bulbs listed in this catalog have proven hardy with us where our winter temperature often goes to 30 degrees below zero. You can be assured that whatever plants you receive from us will be perfectly hardy for you regardless of where you live.

Beautiful Coral Lilies - - Tenuifolium

The absolutely indispensable hardy Siberian Coral Lily—a gem for the rock garden or border—should be in every garden! The bulbs we are offering are extra select three-year-old bulbs. Each bulb will produce from ten to fifteen waxy, fragrant, scarlet flowers in June.

Everyone who saw this charming lily blooming in its glory in

our gardens last summer admired it. You also can grow it in your garden regardless of where you live as it is perhaps the hardiest lily grown.

We all love a good bargain as well as beautiful fragrant flowers. Here we offer you both—order your Tenuifolium Lilies today.

Each 15c 10 Extra Select Three-year Bulbs, \$1.00

REGAL LILY. The Regal is perhaps the best of all lilies—it startled the world when first introduced from China. Should be grown in every American garden.

The bulbs we are offering are splendid, healthy, disease free, and winter hardy. No better bulbs are obtainable anywhere regardless of price. If planted this spring, we will guarantee an abundance of bloom from each bulb this summer. Each.....20c

7 large bulbs for \$1.00

25 large bulbs for \$3.25

LILY HENRYI. The rich golden-orange color of this lily and its ability to thrive in severe climates with little attention has made this lily a favorite among many gardeners. It grows 4 to 6 feet tall carrying its flowers in a stately manner. Thrives in any soil. A very vigorous grower and the bulbs should be planted at least 8 inches deep. Plant some of these lilies and enjoy their beauty this summer. Each 25c; 5 large blooming size bulbs for.....\$1.00

TIGRINUM FORTUNEI GIGANTEUM

A much improved later flowering form of the Tiger Lily. When well established will grow 6 to 7 feet tall and carry as many as 40 to 50 flowers per stem. The color is a bright orange-salmon spotted purple. Very desirable and easily grown. Plant bulbs 6 inches deep. Fine blooming size bulbs.

Each 25c

3 for 60c

10 for \$1.80

LILY SPECIOSUM MAGNIFICUM

This is a grand improvement on the variety Rubrum, being larger, more colorful, and more vigorous. The most outstanding of all fall blooming lilies. Plants grow from 2 to 3 feet tall and in August and September produce the gay colored flowers. Color is a carmine-pink spotted and margined white. An outstanding cut flower, lasting ten days in water. Easily grown and perfectly hardy anywhere. Plant bulbs 6 to 8 inches deep.

The bulbs we are offering will all give abundant bloom this year and increase in number year by year. Each.....25c

5 large bulbs for \$1.00

10 large bulbs for \$1.90

30 BELOW ZERO LILY COLLECTION

The Quality and Price of This Collection Cannot Be Duplicated.

Sedum

(Stonecrop)

The backbone of the rock garden and deservedly so because of their varied habits of growth and perhaps the easiest of all plants to grow. Some varieties will succeed where little else will thrive, while others with evergreen foliage give the rockery its only sign of life during the long winter.

ACRE (Golden Moss). This is everybody's plant. Much used for covering dry banks and a fine ground covering for bulbs. The little fleshy plant with bright green foliage is low growing and slowly spreading. The star-shaped yellow flowers are produced in great quantities in July. 20c each; 3 for.....40c

ACRE AUREA. The golden Acre. Dense mats of gold foliage. Plant habit like Acre but much brighter in color. We consider this variety to be the best of this type. 25c each. 3 for.....60c

ALBERTI. A dense creeping variety with bright green leaves. Very outstanding. Rare. 25c each. 3 for.....60c

ALBUM. Dwarf, slow spreading variety with thick, waxy round foliage and white star-shaped flowers in July. A fine rock plant. Height 4 inches. 20c each; 3 for40c

ANOPETALUM ELEGANS. A terrible name, but none the less a very beautiful and outstanding Sedum. Silvery blue branching stems 5 inches tall. Like branchlets of the best blue spruce. Outstandingly 25c each. 3 for.....

CORSICUM. Close set gray beady clumps much hardier than phyllum. Flowers pink. Height 2 to 3 inches. Each.....25c

ELLACOMBIANUM. One of the newer Sedums taking on glorious colors in autumn. The small bushy plants appear as brilliant green mats of rosettes in spring. Yellow flowers in July. Exceptionally fine. 20c each. 3 for50c

EWERSI. Flat silvery-blue leaves about one inch across on stems eight to ten inches long. Rosy violet flowers in late summer. Often mistaken for Sieboldi but a stronger grower and a larger plant. 25c each. 3 for 50c

HYBRIDUM. A fine trailing variety from China. Evergreen, serrated leaves. Yellow flowers. One of the finest Sedums for winter and spring effect when foliage takes on brilliant colors. Each.....25c

KAMSCHATICUM (Orange Stonecrop). Orange yellow flowers in summer, a small bushy plant about 6 inches tall. Good for fresh green foliage effect in summer which turns golden in autumn. 20c each. 3 for....50c

KAMTSCHATICUM VARIGATED. Handsome variegated foliage effect of green and gold with orange-yellow flowers. Beautiful foliage gives the rock garden color all summer. Exceptionally fine. 25c each, 3 for....60c

LYDIUM. A prostrate plant with bronze moss-like evergreen foliage and pinkish flowers. Spreads slowly forming pretty mats of green 1 to 3 inches high. Foliage turns red in fall. One of the best Sedums. 20c each. 3 for50c

MIDDENDORFIANUM. One of the best of the semi-upright group. Appears in the spring with multitudes of reddish rosettes which elongate to stems of bronze foliage. Yellow flowers in summer. We think this is one of the best. 25c each, 3 for.....60c

REFLEXUM. Dwarf trailing variety with fleshy green foliage. One of the best ground covering Sedums. Yellow flowering, stems growing 6 to 8 inches high. 20c each. 3 for.....50c

RUPESTRE. Semi-trailing stems with linear leaves which take on beautiful coloring. Plants resemble little blue spruce trees tinted with red. Yellow flowers. Height 3 inches. 20c each. 3 for.....50c

SEXANGULAIRE. Much like acre but darker green and smaller foliage. Flowers yellow in July. 20c each, 3 for.....40c

SIEBOLDI. The loveliest of all Sedums with its slender arching stems and bright deep pink flowers in cymes. The leaves are bluish-green with pinkish margins and come in whorls of three. By all means include this in your rockery. More tender than some varieties but hardy here. Height 6-8 inches. 30c each. 3 for.....75c

SILVER (Species unknown). Without a doubt the finest blue-green cushion type of Sedum known. Blue moss-like cushions 1 to 2 inches thick making perfect mounds. Perhaps a glaucous form of Lydium. You must have it! 25c each. 3 for.....60c

SPECTABILE. Indispensable in the rockery or border with its massive heads of upright rose-colored flowers in August and September. A pretty companion plant with almost anything as the foliage is attractive at all seasons. 20c each. 3 for.....50c

SPECTABILE BRILLIANT. Like the above in every respect excepting that the color of the flowers are a bright amaranth-red. 20c each. 3 for 50c

SPECTABILE VARIGATA. A form of spectabilis with leaves striped green and cream. Showy at all seasons and worthy of a place in the garden. 20 each. 3 for.....50c

SPURIUM (Running Stone Crop). A trailing variety much prized for its rose-colored flowers produced all summer. Spreads slowly, rooting as it goes. As cool weather approaches the entire plant assumes a blood-red color which is retained all winter. Height 2 inches. 20c each. 3 for.....50c

STOLONIFERUM. Bushy plants with bright green leaves on reddish stems. Pink flowers. Not spreading, fine for edging. Height 5 inches. 20c each. 3 for.....50c

STRYBRINI. A tufted evergreen species two to four inches high. Resembles a small reflexum in habit but the yellow flowers resemble Acre. 20c each. 3 for.....50c
